Notes to accompany my application to work on trees in my garden at the above address in a Conservation area.

The largest tree (T1) is a Cypress tree. It is only 4 metres from our house and 5/6 metres from the neighbouring house (number 15 Towngate)

It is at least twice as tall as the house (I would estimate its height to be 16-18 metres)

I would like to have it cut down to the level of the top of the stone boundary wall (1metre). It has encroached on the wall, although it hasn't appeared to have damaged it.

The second tree (T2) is a Pussy Willow. It had been cut back to about 6 metres by previous owners of the house, but has regrown, and is now 10 – 12 metres tall.

I would like to have it cut back to about 3 metres, making it more manageable, whilst providing a base for climbing plants.

I would appreciate any advice. The form says that I should inform you - but do I need permission, or can I go ahead. Please let me know.

Thank you
