Subject: Objection for Planning Application 2022/93615
Date: 31 January 2023 12:30:09

Hi Tom,

Please can you add this anonymously to the neighbour representation comments for the above planning application:

The applicant submitted their 'temporary' planning application on 8 November 2022, with the main rationale being that they need time to find alternative premises to run their pharmaceuticals business.

Notwithstanding that the use of a temporary planning application is inappropriate for this scenario, as it has now been 12 weeks since they submitted their application, it would be good to understand what progress has been made to secure alternative premises? For example, how many premises have been viewed and/or shortlisted? What is the planning moving date?

It would generally be accepted that even 12 weeks is a reasonable amount of time to secure alternative premises and to plan a moving date for the business.

Thanks,
