Good morning,

Is there a proposed planned visit to our property to see how this extension would affect us with the points we have mentioned?

Does Kirklees Council practice the 45 degree rule as this would appear to be in significant breach of that to which we are very concerned.

Kind regards,

8 Siskin Gardens

>
> Good morning,
>
> Please find the following objections for the proposed works at Number 6, Siskin Gardens, Netherton, HD4 7FB.
>
> The extension is going to impact upon our lighting in the main kitchen and dining area which is where we spend the majority of our time as a young family.
>
> There will be a substantial loss of light to the garden in what is already a shaded adjoining boundary. It will be dark and negatively impact on our garden.
>
> The length itself of the proposed extension is overbearing to our property and garden with a huge wall being the vantage point.
>
> The plans itself due to the very long length combined with the sky light windows are out of character with neighbouring properties and the area itself.
>
> Kind regards,
