<p>This would have a huge impact on traffic flow through the area which is already an issue. As the entrance is so close to the busy road junction it would also present a hazard due to vehicles pulling into the car park and out causing an obstruction. Due to the double Lane queuing traffic this would also present a hazard to pedestrians who are crossing the entrance This is not a suitable location for a retail store that will be very busy as traffic congestion in this area is already an issue. The proximity to the junction is a hazard.</p>
