<p>Roads and highways in and around the Birstall area cannot cope with the traffic already passing through the village. That particular crossroads is continuously busy throughout the day and a retail unit at that site should not be allowed to go ahead. It would increase traffic, add to existing build ups at that junction and also take away money and customers from existing retail units that exist in Birstall already.</p> <p>It is not a safe junction now, let alone adding further traffic. The roads through fieldhead would also get busier as people would try to cut through to avoid that junction. Residential areas are at breaking point, drivers speed due to their frustration with traffic but this only increases risk to residents and pedestrians.</p> <p>It would be irresponsible to pass this planning permission.</p>
