<p>Whilst there is not an abundance of car parking for the hotel there is some and it must be utilised. An arrangement should be agreed with the rail company over using their large staff car park and the car parking in front of the station tavern should be given over to the hotel. Dropping off and picking up of rail passengers should be moved to the Head of Steam side of the station and taxis should be moved to the hotel side thus freeing up the car parking spaces. There can be no excuses for this new hotel to fail so not having any nearby parking is not an option.</p>
