Our properties are below the site so will affect our privacy The entrance to the site is on to a very busy main road a Childrens Pre school nursery is at the side of the site entrance also a bus stop a zebra crossing just nearby which used by many children who go to the primary school in Church lane also a Sure Start building opposite the site entrance When our properties were built By Fairclough Homes we were told that there was a covenant on the site concerned which stated it could not be built on We think this should be investigated before a decision is made . We would like to point out that Mr Ali cleared the site of many large trees which affected the drainage to our properties
