<p>The land is contaminated and requires redevelopment for the interest of the local community and residents.</p> <p>It will improve the quality of the public realm; as can be seen from the submitted plans, the proposed infrastructure will improve the external appearance of buildings and the landscaping of the area as it is a residential property.</p> <p>The new development will not affect the natural surrounding such as the land/fishing area/greenway by way of contamination or debris unlike the scrapyard - rather it will conserve and enhance the natural local environment.</p>
