This 3 bedroom semidetached house is adjacent to my mothers small 2 bedroom bungalow.
My objections are firstly the height that the extension will create, which will be built 4'' from the boundary and approximately one metre from the small bungalow.

Other than aesthetics, it will completely overshadow the bungalow and garden resulting in complete loss of light to an elderly persons property, both in the garden and home.

There will also be an additional 3 windows overlooking the front, side and back of the property causing loss of privacy to the occupants in the bungalow.

Additionally as this property is going to be increased to 4 bedrooms then it becomes a home for a larger family. Resulting in noise disturbance to the occupants in all bungalows adjacent and opposite.
The houses on this cul-de-sac are a mix of bungalows and small semis intended for small families and elderly. There will also be an increase in traffic noise and the need for additional parking.
