<p>Now Globe Mill 1 has a few tenants, it's become obvious there is a lack of parking on the site, especially as the extra level of parking has been allowed to be removed from the original planning application. Bridge Street has become virtually impassable for larger vehicles delivering to neighbouring business on Bridge Street because of lack of onsite parking at the mill. Parking anywhere in the village has become a nightmare. The proposal to remove condition 17 is based on the amount on money already spent on the development, which will in turn bring financial gain to the owners but with lack of investment in the surrounding roads and extra parking will be detrimental to the residents of the village.</p> <p>The proposal states there will be a new bridge over the canal, at great expense, claiming it will be of benefit to the residents and visitors of, and to, the village.....in fact it will provide easier access to the mill tenants businesses and put further strain on the lack of parking in and around the village.</p> <p>There is no provision for general parking on the mill site except a handful of spaces for the doctors and pharmacy.</p> <p>I hope the requested removal of condition 17 is not allowed as this condition is for the benefit of the village as a whole.</p>
