<p>I do not believe this condition has been discharged simply by the owner developing the mill building. There have been no wider improvements to the village. Since the mill opened the traffic issues have got worse. As a resident on bridge street it is a daily nightmare trying to find somewhere to park. The two surface carparks are an eyesore. At the very least public parking should be offered. The proposed bridge will offer no benefit to me as a resident. Bridge street has damage and pot holes, likely caused by the development construction works traffic, funding is required to resurface the road & pavement.</p>
