How do local people get to know about new building applications when nothing has been posted on lampposts in the vicinity. There is nothing about this application on Greenhill Bank. The design of these 2 properties is not in keeping with the surrounding properties. This is quite a narrow road - only wide enough for 2 cars. There will be disruption to traffic during the build as it is a main route to Scholes and Totties and there is no space for vehicles to be parked off road. The surface of the road, at the point of this development, is already showing signs of cracking since being resurfaced a few years ago so any further disturbance could possibly cause yet another Holme Valley road to collapse.
