

My address wont appear on the list but is King Cliffe works. building next door to the former club bowling green. (Caterers)

Hi, I wish my address is not publicised.

To Kirklees Planning I'm writing to object the planning permission to be granted.

First of all, I think it's very ridiculous that such an idea was even placed into planning considering the fact that its all a residential peaceful home area – Retirement home for most of our parents as they've been here over 30 years. I urgently command that this planning application does not proceed. This is directly adjacent to my property and would negatively impact it in several ways:

- Loading and off Loading my Van for Personal use as I have no Parking Bay.
- As I have No Garden, the removal of the greenery will impact me severely as this is the only place I can watch and feed the Birds and carry out my morning routines.
- The area will no longer feel the same and will look warehouse type not residential.
- Won't look nice with houses all around the area.
- Will make it hard for parking as it already is as well as driving by tight area.
- Ridiculously Planned
- Too Big
- Selfishly designed Metal Structure.
- Noise Nuisances
- Kitchen/Café fumes to be thrown back at neighbouring properties as per plan indicates.
- Disrespectfully considered project Concept due to area.
- Accessibility issues to all properties as well as mine.
- Machinery's – Delivery and Site work disturbance as noise will affect us all
- The removal of our own current parked vehicles will have to take place for any works to be carried out. Where do we park?
- Too high design.
- Wrong material design.
- Inaccurate Project Concept for its Surroundings.
- Other sports centre built away from houses unlike this design. (Too close)

I thank you for considering this, and I am looking forward to your response you provide.
