This will cause major problems parking, it was a pub for years and people who went there used taxi, public transport, the car park is small and wont accommodate enough parking spaces, this is busy now and the proposal in the pipe line for developments along this road to shawcross will be very dangerous, it as had many accidents along this road over the years and around that junctions , this will make this area a lot worse , there are already pray rooms / buildings down soot hill and batley and is not required or needed within this location, there are yellow lines around this area, i live down Heybeck lane , and the traffic is already increasing in this area, i presume if passed the council will make the roads around for residents only with parking permits ? there is no further room for extra parking and will only make residents angry with extra cars park out side there house so they can walk up to this location , i would like a permit, as dog walkers are also on the increase that use the road outside to park near me , and also cars, vans etc park up there for the sandwich shop located opposite and these vehicles already cause parking issues with in this area, i am totally against this change from the old PUB to the meeting / pray room, a complete accident waiting to happen , i hope all these comments are taken on board and saved ,so when a accident happens the council can refer back to residents concerns. a complete disgrace this should not be happening.
