I wish to object to this new application. To prevent repeating everything written over the past 12 months I'll just say "please read all previous objections" regarding.... • Exiting & entering No39 • Exiting & entering new property • Extra traffic from new estate • Building site vehicle parking • On road parking once new build is complete • Subsidence • Disturbance & noise to neighbours during the build • Traffic accidents due to blind bend • Farm Traffic • Wildlife • Alterations from 2019 application • The new property still overlooks Quarry House on Woodhead Rd This new design hasn't really changed much. It still encroaches onto the footprint of the planning that Kirklees turned down in 2019. Why can't the 'landowner' build on the plot where outline planning was originally granted. This application is being allowed to drag on for too long. The Initial target date was 12 April 2023 yet here we are in January 2024 and its still ongoing. Why?
