<p>There are concerns regarding the existing proposed plans for the West elevation and in particular the design, number and placement of the windows. As the building is in the vicinity of a listed building and adjacent to the Local Authority Conservation Area the current design of the West elevation is not considered to be in keeping with other buildings in the locality, and there is a problem with overlooking neighbouring buildings creating lack of privacy issues.</p> <p>These concerns have been raised directly with the applicant and a draft alternative design has been created, although I understand that these amendments have not as yet been submitted to the Kirklees Planning department for consideration. Therefore the concerns outlined above relate to the original proposed plans.</p>
