| <p>I am appalled by the stupidity of this plan.<br/>Just disgusting that this has been proposed to this stage.</p> <p>I see the struggle as it already it is on forest road with parking mainly. It is super tight and the idea to add another 18 cars to the mix. Its like someone needs the head testing. Meaning that the properties that are opposite which park on the road wont be able to in an actual true life rather than plans and tolerance markings.</p> <p>Its a tough at times for walking as when the road gets full which is day to day on different times, sections of the pavement become unusable for pedestrians at this site plan. So therefore it will become impossible for the residents on this road to park with the plan of drives so its null and void.</p> <p>The serious ground works to undergo are so beyond what's viable with the risk of flooding which already is a issue with my property that I rent and cant use the cellar and have a ongoing mould issue from this. But yeah go ahead make this worse be so appreciated (clearly joking as this plan is a joke).</p> <p>Then highways. Forest road was known for potholes with shoddy pavements and therefore being yet another Kirklees bumpy road with shroud attempts of in filling holes. But behold a true amazing job which encountered problems of damp and leaks by just re laying tarmac. But as its now velvet to drive on and walk on the pavements. But your proposing to rip it up for main works which by what was described and shown. A struggle as is.</p> <p>The wildlife.<br/>Its can be so lovely here with birds chirping, wild animals and all the wildlife within the land which in today's world is a rare treat. Please dont ruin this.<br/>Yes it may look unkept but thats whats needed for wildlife to enjoy so just leave it be.<br/>Its a terrible idea to consider this.<br/>I beg for this not to happen</p> |     |
