Subject: Objection to planning application 2023/90668 at Grange Moor Coachworks WF4
4DR

Categories:

Further to your letter 8th of July 2024 with regard to the above, i note that there has been no significant changes to the content of the application that make my previous objection to this application obsolete. I would therefore wish to reiterate my previous objection to this application, in that the proposed development is clearly inappropriate development in the green belt and there are no "very special circumstances" that would outweigh the harm done to the green belt should this scheme be approved, given that the current situation is unauthorised and that the alleged "benefits" of the proposed development are unclear and cannot be guaranteed, either through conditions or planning obligations. No thought has been considered to the noise and visual impact on our house or the affordable rented terrace of houses to the north and west of the site only 30 meters away, the size and scale of buildings this size are always sited in large industrial estates at the side of motorways. Yours Faithfully
