Appendix 1 - Employment, Skills & Social Value Plan

1 Background

- 1.1 PCSpecialist (PCS) was established in 2003 and specialise in the manufacture of performance custom computers and laptops to both the consumer and business markets. The company's diverse client base sees them supplying a varied product range to their customers including desktop PCs, laptops, all in one computers and, more recently, tailored technology to the business market. This has enabled them to grow and become Europe's leading system integrator focusing on building high-performance systems for enthusiasts, gamers & professionals alike.
- 1.2 With demand increasing on an ongoing basis the company's existing site is now operating to capacity and subsequently constraining the growth potential of the business. To address this, PCS are proposing to build a purpose-built site, retaining the Grange Moor location, and allowing the business to realise its growth potential. The new site will consist of a building of approximately 90,000 sq. ft. with internal mezzanines taking the overall floor space to approximately 150,000 sq. ft. in size.
- 1.3 The new build project will also allow the business to increase staff numbers up to 400 initially, an increase of around 82% from current numbers which stands at 252. In the coming years they hope for this to increase to upwards of 700 staff based on shift patterns.

2 Skills

- 2.1 The PCSpecialist Skills Framework sets a vision of realising the potential of the company's existing and new teams by transforming skills, employability and aspiration for employees. In turn resulting in higher levels of employment locally, well paid jobs and income for residents living in and around the new site.
- 2.2 PCS is committed to fostering a positive change for their existing team and local residents alike by developing a vibrant organisation in which people love to work and visit. This framework sets out a starting point for achieving that ambition although much of the detail is already ingrained in the business ethos. By working with key public, private and community partners PCSpecialist is committed to working locally and in a sustainable way offering good quality job opportunities to Kirklees residents.

3 Objectives of the Plan

- 3.1 Identify and promote opportunities for local people.
- 3.2 Provide training to create and support a qualified, skilled, competent and motivated workforce.
- 3.3 Work with the local authority, Job Centre Plus (JCP), and other local employment scheme providers to maximise the benefit of the business through long-term employment.
- 3.4 Work with local Schools, Colleges and Universities to promote opportunities to young people leaving education.
- 3.5 To secure well-paid, high-quality jobs offered locally with the real opportunity to develop career pathways.

4 Strategy & Goals

- 4.1 The new facility will give PCS up to 4X capacity and it is our intention to grow the business as much as possible. The new facility will create a competitive edge by reducing the time it takes us to manufacture an order whilst also reducing the cost of producing orders to ensure that we remain competitive. If we are successful in growing the company sales, the 150+ new jobs to be created will be of both semi-skilled and skilled positions adding circa £5m to the payroll bill. Jobs will offer opportunities in a range of roles from assembly, testing and warehousing through to sales, marketing, coding and accounting. Some of these roles may

be made available as apprenticeships and we are committed to working with the local Schools, Colleges and the University of Huddersfield to help us hire local staff where possible. 42% of current staff reside in Kirklees and we intend to increase this percentage as part of this project.

- 4.2 The new roles we plan to create will be higher quality due to some levels of automation we will introduce to our new plant. This will reduce the need for manual jobs where we find we have a high staff turnover. There will still be a varied selection of employment opportunities but, by removing the inefficiencies we currently have, the new facility will create more opportunities for higher paid, more skilled jobs.
- 4.3 Throughout our 21-year history, we have promoted internally where possible and therefore, with the exception of accounting and coding, most of our skilled management, operations and development teams have been internally hired through promotions. A respectable 12% of our staff have been employed more than 10 years, and 5% in excess of 15 years. In total, almost 1 in 3 staff (31%) have been with us more than 5 years.
- 4.4 As a modern tech business, we resonate very well with the younger generations and just by walking through our production department it can be seen that a lot of our team are young, some of which have worked here since leaving full-time education. This includes all levels from school leavers up to degree level candidates. We are also keen to upskill our current workforce where we can and provide a career path for them within our company so they can grow and mature with us. We have an excellent staff retention record and have always taken the opportunity to promote staff who have been working with the company for a few years to management level positions.
- 4.5 Our new build facility will provide additional resources for staff with the investment in a fully fitted gym along with a social/games room in addition to catering facilities. Each employee is also assigned an annual team building budget which departments can use to organise activities, such as days out, escape rooms, walking and camping trips. Most of our departments utilise this budget and this also helps strengthen our staff morale and working relationships.

5 Job Creation

As previously referenced, the new facility will give PCS up to 4X capacity and it is our intention to grow the business as much as possible. If we are successful in growing the company sales, along with the 252 retained staff we plan to create 150 new jobs in the following areas:

Job Title	Number of Jobs
Warehouse	10
Sales & Marketing	10
Accounts	5
Research & Development	2
Warehouse Engineers	3
Production Operatives	70
Returns Technicians	15

Job Title	Number of Jobs
Customer Service	20
Catering & Cleaning	7
Management	10

6 Initial Hiring Campaign

- 6.1 We may need to recruit additional employees of various skillsets in order to support the business in the new building. Some of these roles may be highly skilled, such as maintaining warehouse systems and managing departments. Where the opportunity to promote internally does not exist, PCSpecialist will work closely with local partner organisations such as Kirklees Council Skills Team, C & K Careers and the local Job Centre Plus to recruit as much as possible from the local talent pool. For entry level positions, we would look to hold recruitment days in conjunction with the aforementioned partners to offer positions to those actively looking to seek employment and more disadvantaged areas of the local community.
- 6.2 After we have relocated into the new building, it is anticipated that PCSpecialist will have resourcing requirements all year round. To fulfil additional staffing demand PCSpecialist will continue working closely with its partners, local Schools, Colleges and Universities. We already have good working relationships in place with Business Kirklees, Kirklees Skills & Employment teams and the University of Huddersfield. We will use these connections to further utilise contacts at local schools and colleges along with the wider West Yorkshire Combined Authority who will aid us in connecting with local schools.

7 Opportunities for Current Workforce

- 7.1 PCSpecialist is committed to upskilling and promoting staff from within and are committed to developing career pathways for their employees. All current staff will be able to apply for any of the new positions on offer and request training to be able to fulfil this.
- 7.2 We look to take a targeted and comprehensive approach that addresses any specific skill gaps identified within the organisation.
- 7.2.1 Comprehensive Assessment:
- We conduct a thorough analysis to identify specific skill gaps within the workforce, focusing on areas such as technical skills, digital proficiency, management, and interpersonal skills.
- 7.2.2 Tailored Training Initiatives:
- We will continue to develop customised training programs that directly address the identified skill gaps. These initiatives should accommodate different learning styles and levels of expertise within the organisation.
- 7.2.3 Diverse Training Methods:
- We utilise a combination of in-house resources, external training providers, digital learning platforms, and on-the-job training to offer a varied and comprehensive learning experience.

7.2.4 Promote Learning Culture:

We will continue to foster a culture of continuous learning and professional development within the organisation. We encourage participation in mentorship programs, conferences, workshops, and industry events.

7.2.5 Feedback and Recognition:

We establish mechanisms for continuous feedback, evaluation, and recognition. We monitor the impact of upskilling efforts, reward active participation, and create clear career paths for employees who acquire new skills.

8 Employment and Training Measures

8.1 For both new recruits and current workforce:

8.1.1 Workforce Training

8.1.2 Staff Development/Upskilling via in-house training schemes

8.1.3 We will investigate apprenticeship schemes where the scheme is in-line with our business requirements (entry to degree level).

8.1.4 Traineeships

9 PCSpecialist Commitments

9.1 We will continue to investigate apprenticeship schemes at all levels and work with organisations to offer these if they are suitable.

9.2 We commit to providing graduate placements.

9.3 We commit to maximising the number of roles offered to Kirklees residents.

9.4 We commit to working with the Council and partners to support Sector Based Work Academies and other initiatives to optimise access to employment opportunities for local residents.

9.5 We will investigate opportunities to engage with local schools to raise awareness of relevant career pathways and other initiatives to raise aspirations, and to working with the College/University to shape future curriculum development.

10 Kirklees Council Social Value Commitments

10.1 The Council's approach to social value focuses impacts upon four key areas. Please find below how PCSpecialist feed into this vision:

10.1.1 Residents

10.1.1.1 As detailed above care will be taken to offer opportunities to the local labour market in the first instance offering good quality, skilled job paid at Living Wage rate and above.

10.1.1.2 As a business we naturally attract young people to our industry sector and we are committed to creating routes into employment for the local younger generation along with career paths to upskill and improve.

10.1.1.3 Care will be taken internally to support workers physical and mental wellbeing with the new development offering state of the art facilities including onsite gym, break out spaces, games area and canteen. Each

employee will also benefit from a wellbeing budget used on things such as team building days and events.

10.1.2 Communities

The business already sponsors the local junior football team enabling them to enrol in the junior football league along with kits for each player. We are also open to other opportunities locally that will help build community spirit and collaboration. Ad hoc volunteering and mentoring from staff will also be considered.

10.1.3 Businesses

We already employ positive business practices throughout our operation. We are happy to conduct a supply chain review to look at increasing business opportunities for other local companies.

10.1.4 Environment

10.1.4.1 The new premises will incorporate solar panels, heat recovery systems, heat pumps, LED lighting throughout and we have produced both a Carbon Reduction Plan and an ESG Strategy with clear targets of achieving carbon neutrality by 2030 – the new build facility forms a crucial part of these strategies because of our opportunity to invest in solar and utilise the existing wind turbine. You can download both our Carbon Reduction Plan and ESG Strategy on our website here: <https://www.pcspecialist.co.uk/business/>.

10.1.4.2 Getting our staff to the premises has also been considered and we are currently exploring the opportunity of car share schemes and transport for up to 16 people per vehicle. We are already operating a 100% electric vehicle fleet and in our planning application we have gone way above the minimum required number of EV charging stations required in order to encourage our staff to commute in a green way in future. For those staff who live within a reasonable distance we will be providing cycling shelters and investigating the possibility of cycle to work schemes.

10.1.4.3 As part of our planning agreement, we will also be planting trees around the site which will improve the air quality, provide some noise reduction and improve the view. The facility will occupy less than 5 acres on an 18-acre site so we will have the opportunity to create a benefit for wildlife on up to 13 acres of land, which will include trees and vegetation. We may also be able to encourage wildlife to benefit from the balancing pond.

11 Monitoring

11.1 Monitoring of the skills plan will occur through a number of channels.

11.2 Internally through our own HR team.

11.3 In conjunction with Business Kirklees

11.4 In conjunction with Kirklees Employment & Skills team.
