

**Consultation Response from KC,
Trees****2023/90873 Whiteleys Garden Centre, Far Common Road, Mirfield, WF14 0DQ****Erection of 8 ultra-rapid electric vehicle chargers, substation and associated electrical equipment****Date Responded: 04/05/23****Responding Officer: Nick Goddard****Responding Ref: TPO 17/77**

The installation of substation and equipment and charging points will result in small foundations and powerlines being laid along edge of parking area. Having visited site I am satisfied that provided trenching is kept to a minimum along the edge of the carpark this is unlikely to result in any significant harm to the adjacent trees.

Despite the lack of tree information provided I am satisfied that there is unlikely to be any significant impacts to valuable trees. I would therefore have no objection to the proposals.
