**Subject:** 104 Oakes road south

Hi, I'm writing this email to inform you of a hazardous tree at 104 Oakes road south in Oakes/Quarmby which is in a conservation area. We recently got consent to prune the tree however in the recent snow one of the main stems uprooted and has exposed the root plate for the entire tree. I recommend a 5 day notice due to the status of the tree and its proximity to the road and the tree owners house. The fallen limb had to be processed as it was blocking access to the property. Please see photos attached of the damaged tree/roots and evidence of fungus on fallen limb.

Please get back to me if you need more details.

Thanks  
Fox Elliott
