

Consultation Response from: KC Environmental Health (Pollution & Noise Control)		
2023/91071 Town Cafe, 33, Alder Street, Fartown, Huddersfield, HD1 6LD		
Demolition of existing building and erection two storey building with ground floor cafe and first floor office		
Responding Date: 8 th June 2023	Responding Officer: SR	Responding Ref: WK202316284
<p><u>Comments</u> We have reviewed application 2023/91071 and make the following comments and recommendations.</p> <p><u>Contaminated land</u> This site has been identified on our mapping system as potentially contaminated land due to its previous use as a depot, site ref: 642/9, it is also across the road from Hillhouse sidings site ref: 97/9. It is in close proximity to several other industrial areas and a former landfill site ref: 40/10. Contaminated land conditions are therefore necessary. A Coal Mining Risk Assessment by Geoinvestigate Ltd, dated the 24th of April 2023, ref: G23162, has been submitted in support of the application. The report includes geotechnical information, which is outside the remit of Environmental Health, this consultation response therefore only relates to the land contamination aspects of the report.</p> <p>The report attributes a potential risk to future users from possible shallow coal but does not fully assess all the potential contamination at the site. It discusses the possibility of gas protection measures. We recommend full contaminated land conditions in order to fully appraise the site situation and ensure any appropriate monitoring is undertaken before protection or remediation is discussed.</p> <p><u>Odour</u> Office accommodation is proposed directly above the proposed café/restaurant, cooking odours could cause a loss of amenity to future users and to other workplaces in close proximity to the rear of the building. We therefore recommend a condition.</p> <p><u>Drainage</u> A commercial kitchen producing foods that involve the use of fats and oils can cause damage to the drainage network from a build up of grease, fats and oils. In order to protect the drainage network a condition is recommended.</p> <p><u>Construction Noise</u> Construction noise can give rise to loss of amenity to neighbouring noise sensitive receptors, for this reason a condition is necessary to limit the hours of operation for the site.</p> <p><u>Recommended Conditions</u> CLC1 Submission of a Phase 1 Preliminary Risk Assessment Report - Condition Groundworks shall not commence until actual or potential land contamination at the site has</p>		

been investigated and a Preliminary Risk Assessment (Phase I Desk Study Report) by a suitably competent person has been submitted to and approved in writing by the Local Planning Authority.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 183 and 184 of the National Planning Policy Framework

CLC2 Submission of a Phase 2 Intrusive Site Investigation Report - Condition

Where further intrusive investigation is recommended in the Preliminary Risk Assessment approved pursuant to condition (CLC1) groundworks (other than those required for a site investigation report) shall not commence until a Phase II Intrusive Site Investigation Report by a suitably competent person has been submitted to and approved in writing by the Local Planning Authority.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 183 and 184 of the National Planning Policy Framework

CLC3 Submission of Remediation Strategy - Condition

Where site remediation is recommended in the Phase II Intrusive Site Investigation Report approved pursuant to condition (CLC2) further groundworks shall not commence until a Remediation Strategy by a suitably competent person has been submitted to and approved in writing by the Local Planning Authority. The Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 183 and 184 of the National Planning Policy Framework

CLC4 Implementation of the Remediation Strategy - Condition

Remediation of the site shall be carried out and completed in accordance with the Remediation Strategy approved pursuant to condition (CLC3). In the event that remediation is unable to proceed in accordance with the approved Remediation Strategy or contamination not previously considered [in either the Preliminary Risk Assessment or the Phase II Intrusive Site Investigation Report] is identified or encountered on site, all groundworks in the affected area (except for site investigation works) shall cease immediately and the Local Planning Authority shall be notified in writing within 2 working days. Works shall not recommence until proposed revisions to the Remediation Strategy have been submitted to and approved in writing by the Local Planning Authority. Remediation of the site shall thereafter be carried out in accordance with the approved revised Remediation Strategy.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 183 and 184 of the National Planning Policy Framework

CLC5 Submission of Verification Report - Condition

Following completion of any measures identified in the approved Remediation Strategy or any approved revised Remediation Strategy a Verification Report by a suitably competent person shall be submitted to the Local Planning Authority. No part of the site shall be brought into use until such time as the remediation measures have been completed for the site in accordance with the approved Remediation Strategy or the approved revised Remediation

Strategy and a Verification Report in respect of those remediation measures has been approved in writing by the Local Planning Authority.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 183 and 184 of the National Planning Policy Framework

CLC7 Contaminated land - Footnote

All contamination reports shall be prepared by a suitably competent person, as defined in Annex 2 of the National Planning Policy Framework 2021. Reports must be prepared in accordance with the following guidance:

- *Land Contamination Risk Management (LCRM)*
- *BS 10175:2011+ A2:2017 Investigation of Potentially Contaminated Sites. Code of Practice*
- *Development on Land Affected by Contamination - Technical Guidance for Developers, Landowners & Consultants - (v11.2) June 2020* by the Yorkshire and Lincolnshire Pollution Advisory Group.

The conditions relate to Planning Control only. Approval under the Building Regulations may also be required, and the applicant should contact their Building Control Provider for further information. Any other necessary consent must be obtained from the appropriate authority. If the applicant commences work without discharging conditions, they will be at risk of enforcement action and invalidating the permission if the planning condition is a pre commencement condition.

OC1 Kitchen Extract Scheme - Condition

Before food cooking commences details of a kitchen extract system shall be submitted to and approved in writing by the Local Planning Authority. The details shall provide the following information:

- A risk assessment for odour which considers amount and type of food that will be cooked together with the proposed dispersion of odours and proximity of receptors likely to be affected by any cooking odours.
- Based on the risk assessment, details of the proposed methods of odour control and dispersion of any extracted odours. Dispersion must ensure that adequate dilution takes place before the plume interacts with the nearest sensitive receptor.
- If required, details showing the proposed location of all the major components of the extract system.
- The proposed ongoing maintenance schedule that will be carried out to ensure that the extract system continues to effectively control odours and not cause excessive noise.

Before food cooking commences the approved extract system shall be installed and thereafter retained and maintained in accordance with the approved details.

Reason: To ensure the proposed development does not cause harmful odour pollution within either a public area or at neighbouring premises in the interest of amenity, to comply with the aims and objectives of Policies LP24 and LP52 of the Kirklees Local Plan and Chapters 12 and 15 of the National Planning Policy Framework.

OC1F Kitchen Extract Scheme - Footnote

Detailed advice is available in "*Control of Odour and Noise from Commercial Kitchen Exhaust Systems*" by EMAQ May 2022 (2nd Edition).

DR08 Pollution Prevention (for food outlets including take-aways/restaurants)

Before food cooking commences a scheme to prevent fats, oils, and grease entering the drainage network serving commercial food preparation and dish-washing areas must be submitted to and approved in writing by the Local Planning Authority. The scheme shall be implemented prior to first operation of the development and shall be retained throughout the lifetime of the development.

Reason: To ensure the provision of adequate and sustainable systems of drainage are employed, in the interests of amenity, and environmental well-being and to comply with LP44 of the Local Plan and XXX of the NPPF

CSC1 Construction Site Working Times - Condition

Noisy construction related activities shall not take place outside the hours of:

07.30 to 18.30 hours Mondays to Fridays

08.00 to 13.00 hours, Saturdays

With no noisy activities on Sundays or Public Holidays

Reason: To safeguard the amenities of the occupiers of nearby properties in accordance with part 15 of the NPPF and LP52 of the Local Plan

CSF1 Construction Sites working times – Footnote

Kirklees Council has powers under Section 60 of the Control of Pollution Act 1974 to control noise from construction sites and may serve a notice imposing requirements on the way in which construction works are to be carried out. It has additional powers under Sections 80 of the Environmental Protection Act 1990 to prevent statutory nuisance including noise, dust, smoke and artificial light and must serve an abatement notice when it is satisfied that a statutory nuisance exists or is likely to occur or recur. Failure to comply with a notice served using the above-mentioned legislation would be an offence for which the maximum fine on summary conviction is unlimited.

Recommendations

FS1 Food Safety - Footnote

It is recommended that prior to development commencing the applicant should contact the Food Safety Team of Environmental Services to arrange an advice visit to discuss food safety and hygiene requirements including an appropriate layout. The Food Safety team can be contacted on 01484 22100 (ask for food safety) or by email at food.safety@kirklees.gov.uk.

HSF1 Health & Safety - Footnote

All workplaces where staff are employed need sanitary accommodation and all premises which are open to the public for entertainment and consumption of food and drink require toilets that are accessible to the public. If applicants need further advice on number and facilities, then please contact the Health and Safety team on 01484 221000 (ask for health and safety) or by email at healthandsafety@kirklees.gov.uk
