<p>I feel this is an already a vastly overpopulated area . The erection of 77 additional properties would have a significant negative impact on the existing infrastructure. The access to the new properties would have a massive detrimental effect for the existing residents.</p> <p>77 properties easily equates to well over 100 additional motor vehicles creating additional air pollution to a family friendly housing development. This could have a negative impact on the long term health of young children and infants growing up in this area . Also increased numbers of vehicles in this area also increases the threat of injury to children out playing .</p> <p>I would like these comments to be reviewed and responded to , expelling my concerns prior to planning permission be granted.</p> <p>Thank you</p>
