Postcode:	BD19 5LQ

### User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>Access to the site would cause a significant amount of disruption due to an already extremely busy housing estate due to large trucks initially for the building followed by traffic that will be occupying the 77 planned houses. The proposed entrance will also mean several trees will need to be cut down and will affect the many species that live amongst them. The planned layout will also cause my house along with my neighbours to be overlooked taking away our privacy, it will also take away our view therefore decreasing the value of my property!</p> <p>The land has also been used for mining in the past meaning there are many mine shafts which could cause issues in the future!</p> <p>I fully believe the plans will cause a significant amount of disruption to many humans as well as the local wildlife and I 100% do not support the plans!</p> <p>There is also a water pipe running through the field which could cause issues!</p> <p>The fields and surrounding areas are full of wildlife that will be disturbed and a great loss to the local area! Local schools, dentists and doctors are already full, building more houses will cause unnecessary pressure on already stretched services!</p>
