<p>As a long term resident of Darley road I think the use of this road to access the the proposed new build is totally unsuitable. The road is just wide enough for 2 cars to pass, and through out the day there are cars parked down both sides. It would be a nightmare with construction traffic trying to negotiate this daily. In the winter we have people who live at the bottom of the hill parking both sides of the road at the top and onto Halifax road.</p> <p>It's well documented about all the mine workings in this area. As a child living local we were told to keep away from the area fenced off by Primrose lane as it was an open mineshaft. All the original houses built at the top of Darley road are built on concrete rafts because of the mine shafts.</p>
