<p>I would like to object to this planning application as I did for the previous application. The surrounding roads already suffers with heavy traffic and cars parked on both sides of the roads. The huge increase in cars accessing this area will be dangerous and the surrounding residents will suffer. The current waterways cannot deal with the current load imposed and this will only increase. The area is a high risk coal mine zone which should not be built on. The nice open green space will be ruined. The reason for allowing people affected to comment on the proposal is to ensure the interests of the majority are actioned. As far as I am aware the only people supporting this application are the people who stand to benefit financially from the construction and sale of the properties.</p>
