Postcode:	BD19 5LQ

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>As a current resident of Darley Road, I can not offer my support of the proposed development - which will result in various issues which need to be considered and fully addressed prior to any serious planning consideration:</p> <p>The development will add more significant traffic congestion to Darley Road - which currently only has a single point of access onto Halifax Road.</p> <p>The additional traffic increases the risk to both young children and the elderly residents on Darley Road - especially when new residents will be parking their own cars away from the new housing estate due to inadequate parking provisions shown - it is already a serious issue that children and parents with buggies/prams are forced to walk on the main roads due to current residents parking on the footpaths along Darley Road towards the new housing estate.</p> <p>The land proposed for the new development contains a variety of wildlife and insect species - I don't see anything in the current proposals on how the local ecology would be affected and the knock on affect from losing yet more green belt in Kirklees.</p> <p>There are countless plots of brown field sites which can accommodate new housing in the local area, all of which have existing utility provisions, drainage and transport considerations.</p> <p>The above point are just a few examples of the reasons for my objection and should planning be granted - their are some serious questions that would need to be answered and addressed prior to any implementation</p>
