Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	No
<p>We have noticed that an amendment to the original plans has been changed increasing the number of houses to be built. The reasons for the objection originally still stands.</p> <p>The amount of pollution from additional vehicles will cause a lot of health problems. Trying to get out onto the main road from Ripley Road will be horrendous as it is already a problem. You take your life in your hands at busy times not to mention the safety for children going to school and coming home school which is already a problem.</p> <p>Can the infrastructure take the additional building of 77 more homes i.e where does the water go when we have heavy rain, it already runs off the fields and into the beck which floods the surrounding area. And the extra utilities required will put additional strain on demand.</p> <p>Also can the surrounding schools take the influx of additional students? Headlands already has a problem will parents trying to park to pick up their children.</p> <p>Headlands Road at busy times is already a death trap without the additional traffic which the additional homes will generate.</p>
