<p>As a resident on Darley Road, I strongly object to the plans for 77 additional houses with the access road being through Darley Road. The area is already oversubscribed Darley Road and the off-shoot roads from there. Cars already park on both sides which narrows the road further I believe on the last application there was talk of yellow lines being put down but where are residents supposed to park.</p> <p>Obviously, this will not affect the new resident as they have parking allocated however it would have an effect in winter as residents at the bottom of the hill park at the top as they cannot get up the hill. I also believe the increased traffic will cause a danger to local pedestrians and children.</p> <p>The land has also been used for mining in the past meaning there are many mine shafts which could cause issues in the future I believe at the last application this was objected to by the Coal Board.</p> <p>The plans will cause a significant amount of disruption to many humans as well as the local wildlife. The fields and surrounding areas are full of wildlife that will be disturbed and a great loss to the local area.</p> <p>The current infrastructure cannot cope as it is local schools, dentists and doctors are already full, building more houses will cause unnecessary pressure on already stretched services.</p> <p>It was also interesting to note the football club was referred to as Hartshead when I believe it is Liversedge shame they cannot get basic things like that right.</p> <p>I 100% on behalf of my family strongly object to this development been given the go ahead.</p>
