Hi

I object to the future plan of houses behind my property 11 lower hall mount.

The access through an already busy estate (Farley road) will cause problems with the increased volume of traffic. The residents have to park on the roadside if they haven't got a drive . The entrance to the estate is Halifax road which is has constant traffic more so at school times. The school is already full along with the local doctors. New residents may find it hard to join these.

Fire department and bin vehicles will find less room for manoeuvring.

More importantly There are mine shafts under the proposed building of 77 houses! Which doesn't seem to be taken into account.

We do have a natural habitat which included bats which are a protected species.

Please consider the above when the application is submitted.
