12 Primrose Lane
Hiversedge
WF15 6PA

To whom it may concern,

I am writing in response to your information about the planning application for land off Primrose Lane.

As I am a resident of Primrose Lane I am concerned about the status of the lane which is a historic bridleway for the use of horses and pedestrians. There are increasing numbers of cars using it as a short-cut and the unmade road is being damaged.

I am aware of the need for more housing but the land being considered

for accomodation is one of the last green areas between Dewsbury and Bradford. There is lots of pressure on doctors surgeries, dentists and schools - all of which are full. Another large development is taking place just along the road towards Cleckheaton also putting pressure on local services.

77 houses will probably mean at least another 150 cars in a small area - increasing traffic to both Halifax Road and Bradford Road.

Surely there must be other land available rather than using the last of the green fields around here.

Yours faithfully
