<p>I dont want houses built because it is going to ruin our wildlife. The area will get noisy and too much volume of traffic running through Darley Road. The road and area is bad for parking as it is. Bad weather cars will be dumped in our residential area and its bad enough with cars already at the bottom of the road dumping them at top of the road and causing congestion. There is already a problem with flooding and runs down to the beck and floods housing estate nearby and this will add to the problem.</p> <p>We have foxes and pheasants and bats in the area where these houses are hoping to be built. We dont have enough doctors in the area for more residents. Its just going to add so many problems to the area and we already have enough problems as it especially with 2 and 3 cars to an house hold we can't have double yellow lines on Darley Road just so some other houses to be built without a proper road to access the new builds. The car parks are not enough for the cars already on the street</p>
