

Complaint about housing- Darley Road

From:

To: DCAdmin <DC.Admin@kirklees.gov.uk

Hi I live on Darley Road and I would like to express my concerns on the planning being done. Application Number 2023/91116.

Building these houses will cause so many accidents on Darley road, cars park on either side of the road as it is , especially when there a high amount of children playing on the streets with their bikes and scooters so building these houses will be highly dangerous. Especially when its snowing how are cars supposed to come up and down Darley road safely when they will be an extra 77+ cars coming up and down it?

With the houses being build they will also be a lot of noise especially by the "boy races" who thinks a housing estate is a 40MPH road! As majority of my family live here I am very worried it will heavily impact my Grandmas mental. As the houses are being build they will be a high amount of children (even more than before) on the streets and I don't find it very confutable leaving my car in the car park where I can not see it so I do believe they will be a higher amount of criminal damage in this area. I am also very worried about the appearance of this council estate as it will out of place due to it being built opposite the greenway.

Overall building these houses will cause a lot of accidents both damage to properties/ cars and a lot of fatal accidents especially with children playing. This will also cause high amount of stress and anxiety to a lot of family's/ individuals (my grandma included) who there mental health may have a massive effect due to the level of noise this estate will bring.

As a local residents who have lived here majority of my life I strongly believe building these houses will cause a lot of issues some of which are very serious issues and will cause the area to have a negative impact in the local community and other local areas.

I hope to hear from you,
Thanks
