<p>I live close to where this access point will be and as things are on the estate at the present time cars are constantly damaged due to car parking issues. Emergency services are already unable to access our property due to the sheer amount of cars parked on the side of the road. Cars for 67 other homes is just not possible. This is a constant source of worry for us existing residents which will be made all the worse with the addition of new homes. I would also be interested to know what will be done regarding the green belt and the wildlife that exists. Primrose lane is a heritage trail and the surrounding fields are full of mine shafts and gas which we have always been told could never be safe to build on. If these plans go ahead with the planned exit and entry point i worry about the safety of us all on the existing denby, darley, riple road estate.</p>
