<p>There are multiple factors that worry me about a development of this size in one of the more rural areas of Liversedge. First and foremost is the wildlife - there are local Deer spotted on occasion by locals along with birds of prey and obviously the various animals that they prey on. In addition to this, the traffic considerations need to be reviewed in depth as current traffic coming between Leeds and Cleckheaton/Liversedge is horrendous - there doesn't seem to be a plan in place that will deal with the increasing bottleneck in and around this area, and that includes the council's plans for the bus lane improvements etc in the area - none of this will actually help the situation especially with the addition of new houses to this extent.</p>
