<p>The proposed plans for 67 dwellings on this land appalled me. I have owned a house on the estate for over 30 years. I have read through the supporting documents for traffic and accidents and it does not represent the actual living and commuting conditions that already exist. The traffic is so bad already trying to get out of Ripley and Darley Rds. To increase this is ludicrous and dangerous. There are more accidents than have been stated on the report and will doubtless be many more if this goes ahead. The parking is already pack jammed and the proposed parking is not enough for todays and the futures needs. Where are the children supposed to play if the streets are so clogged up? It's just not feasible. The schools and doctors in the immediate area are already full, where are the provisions in the infrastructure for these very basic needs. Finally is Hightown to lose a nice green space and just become a concrete jungle? A big part of the charm of the area are the green spaces. This is not a good idea on any front and will not be backed by the local community. If housing is needed then look at old sites that can be adapted or rebuilt on land that is already residential. This should not be purely a commercial decision based on money. It should be a decision that is good for the new and existing residents. Thank you</p>
