<p>I am writing an objection to the planning application as a resident of Linton Close which is just off the proposed entry road (Darley Rd) into the new housing estate. The road is already heavily used from current residents, there will be almost double the properties trying to access the current estate as-well as the new one so will have a massive impact on the traffic in and out aswell as the noise and or disturbance to the current neighbouring properties. The extra vehicles per property will also have a damaging effect on the environment around the area taking away the reasoning behind why I first decided to purchase my current house so the effect on the character of this estate which I have grown up on will be extremely affected. There will be further risk to the residents and children who play in the along grassed sections but also sometimes on their driveways.</p> <p>Furthermore, I walk my dog along the greenway often passed the field where the proposed building work is to take place and often see a variety of wildlife within the field who presumably use this as an area to graze so this is another aspect as to why I feel the application is absolutely preposterous.</p>
