Do you wish your comments to be published on the website anonymously?	Yes
<p>Access to the site would cause a significant amount of disruption due to an already extremely busy housing estate and the large trucks used for the building followed by traffic that will be occupying the 67 planned houses. The access road is already so congested that any emergency vehicles would struggle to get down now, adding more would be an accident waiting to happen. The proposed entrance will also mean several trees will need to be cut down and will affect the many species that live amongst them. The planned layout will also cause my house along with my neighbours to be overlooked taking away our privacy, it will also take away our view therefore decreasing the value of my property!</p> <p>The land has also been used for mining in the past meaning there are many mine shafts which could cause issues in the future!</p> <p>I fully believe the plans will cause a significant amount of disruption to many humans as well as the local wildlife and I 100% do not support the plans!</p>
