<p>Where are all the people going to go to school doctors dentists etc infrastructure on roads drainage is not adequate will this put more pressure lower down in the valley that is in a flood risk area.</p> <p>What about wildlife in the area there all lots of bats your taking more natural habitat away.</p> <p>More air pollution will this impact on the cycle path gate way for the surrounding area.</p> <p>We don't need our open space building on use other sites where disused buildings are a lot of our green field areas have been built on in this area look at the top of mirfield where they have used all the green space.</p> <p>So I am objecting to this proposal.</p>
