<p>Primrose Lane is an area of natural beauty. The erection of 67 dwellings on this site will have a massive impact on the local wildlife. There are ancient hedgerows which are home to a multitude of birds. Darley Road can at the moment not cope with the amount of traffic using it, let alone another 140 odd cars. Not withstanding all the lorries using it while the homes are being built. Primrose Lane is also a public bridleway. How is that going to work with all the building work going on right next to it?</p>
