<p>When we purchased our property we were assured there would be no properties built on the field behind our home, due to mineshafts and hence felt safe in buying our home, it is also a mostly peaceful area and feel we may lose that peace, which would also impact on the local wildlife, esp the bats and birds we watch in the warm evenings, we will also lose the view we purchased our house for, since living here we have had one break in, but would not feel safe that so many extra homes could cause more, the area we live in already has problems with not enough space on the narrow roads, not too mention the poor state of the roads we have, the surrounding schools are so full with pupils it will be difficult finding space for yet more children, so yes as a family we object to the extra homes, the noise, the loss of the view and no doubt the wildlife in our area.</p>
