<p>I wholeheartedly object to this proposal as a resident on Darley Road it is already overwhelmed with traffic and parking is always difficult. A further increase in traffic will only add to this and make it even more dangerous than it already is for residents. The proposal to impose parking restrictions is not viable given the lack of availability now. In addition we have recently had transport services cut, local schools are oversubscribed, doctors are overwhelmed with patients we don't have a full grade A&E department locally.</p> <p>Given the current climate change position we are in I fear for the impact on local wildlife, by destroying hedgerows and reducing rural spaces surely cannot be seen as a good thing. The other two people in our household also object to this proposal.</p>
