<p>Access to the proposed site will cause significant amount of disruption to an already busy housing estate initially with the trucks followed by the residents of the new estate. The development will also mean that many trees will have to be chopped down destroying many different species homes! 67 homes will mean schools and doctors that are already pushed to their limit will be put under more strain. The layout of the development will take away our privacy along with the rest of my neighbours, it will also take away our view which will dramatically decrease the value of our house. These plans are going to cause disruption to many people and I fully object to them going ahead.</p>
