| <p>I object to the building of these houses for numerous reasons</p> <p>First of all the entrance point for the buildings is ridiculous, I live on Denby Close and when turning up my street I often have near misses with young children who play in the road.</p> <p>The parking is bad enough around the entrance point so adding possibly 100 cars to the area will not do any favours for the parking or traffic around here</p> <p>The entrance point will cut through a footpath that people walk down to get to the open valley green way and will also cut through trees that hold plenty of wildlife.</p> <p>As I live on Denby Close the noise when building these houses will effect my partner who works from home aswell as our view across the fields and the sunlight to our garden.</p> <p>The muck and dust from building will spread across the estate, which again isn't good for neighbouring properties and the many children that play on the street.</p> <p>Access for wagons and large vehicles will be limited due to the parking which runs all the way up to Halifax road.</p> | |
