<p>i object to this development. It does not accord with the environmental policies of the council since it will destroy the natural environment. The trees and the landscape will be affected by building such a large development on greenfield space, and the development is out of character with the surrounding greenfields. The area should be preserved as an open space for agricultural purposes.</p> <p>the development will destroy the rural character of the area and will require extensive traffic and disturbance to be a continual aspect of the area. The Primrose Lane is a bridleway, not a road, and should remain as such. Developments for housing should be prioritised on brownfield not greenfield sites.</p>
