<p>The application does nothing to address the reasons why the previous application 2022/62/93346/W was refused other than adding some photos of the structure .</p> <p>The applicant does not appear to have consulted KC on this revised application to address the previous issues.</p> <p>The pergola is not a pergola it is an enclosed building partially open on one side, the size of the “pergola” is not subservient to the host building. The steel sheeting materials used (side walls and roof) are not in keeping with host building.</p> <p>The structure extends forward of the host building takes up the majority of the side garden.</p> <p>The application is not compliant with KC planning policies and should again be refused.</p> <p>The applicant has not appealed the previous application and presumably accepted the previous refusal would not be overturned.</p> <p>The application should again be refused and appropriate enforcement action commenced to the ensure the removal of the already erected structures i.e both the Garage and “Pergola”</p>
