Dear Sir / Madam,

I am an environment manager working on behalf of TRU.

I am reporting damage to a Tree Preservation Order at number 4 Rutland Road, Batley WF17 0LT. A over hanging branch was struck some construction plant and damaged the tree at the joint of two large over hanging branches which are now a danger to the public using the highway and public footpath. We have spoken to the property owner and we can arrange for the branch to be taken down by our responsible contractor, please could you advise what information you need before the work takes place if you would like to meet us at the location please let me know.

Please see attached screenshot and photos of the location of the tree and the damaged branches.

I look forward to hearing from you.

Thanks in advance.

Kind Regards,

Nicola
