

**KIRKLEES METROPOLITAN COUNCIL
INVESTMENT & REGENERATION SERVICE**

DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	2023/62/91199/W
Site Address:	7, Delph Lane, Netherton, Huddersfield, HD4 7HQ
Description:	Erection of single storey front extension
Recommending Officer:	Sam Jackman

DECISION – CONDITIONAL FULL PERMISSION

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

John Holmes

AUTHORISED OFFICER

Date: 15-Jun-2023

Officer Report – 2023/91199

<https://www.kirklees.gov.uk/beta/planning-applications/search-for-planning-applications/detail.aspx?id=2023%2f91199>

Site Description

7 Delph Lane, Netherton, is a small one up one down mid Terraced cottage of three located at an angle to Delph Lane. The property benefits from a small front garden with nothing at the rear, which backs onto a row of back to back terrace properties.

Description of Proposal

The application is for a single storey front extension to create a new kitchen and porch replacing the existing smaller timber framed glazed porch.

The measurements of the proposal are as follows:

- 2.2m in projection
- 4.4m in width
- 2.5m max n height to the eaves; 3.25m max in overall height with a lean-to roof

The proposed extension would be built from materials to match the host property using natural stone with stone or artificial stone slates,

History of negotiations/amendments received.

No negotiations have taken place with the applicant/agent due to the application being acceptable in its submitted format.

Relevant Planning History

None

Representations

We are currently undertaking the legal statutory publicity requirements, as set out at Table 1 in the Kirklees Development Management Charter. As such, we have publicised this application via neighbour notification letters, which expired on the 8th June 23, whereby no representations have been received.

Consultation Responses

None

Policy

The site is unallocated on the Kirklees Local Plan and falls within an area with a known presence of bats.

Kirklees Local Plan:

- **LP 01**– Achieving sustainable development.
- **LP 02** – Place shaping
- **LP 21** – Highways safety
- **LP 22** - Parking
- **LP 24** – Design
- **LP 30** - Biodiversity and geodiversity
- **LP 51** – Protection and Improvement of Local Air Quality

Supplementary Planning Documents:

- Highways Design Guide SPD
- House Extensions and Alterations SPD

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published 21st July 2021, the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 2 – Achieving sustainable development.
- Chapter 4 – Decision-making
- Chapter 12 – Achieving well-designed places.
- Chapter 14 – Meeting the challenge of climate change, flooding & coastal change.
- Chapter 15 – Conserving and enhancing the natural environment.

Legislation

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

Assessment

The following matters are considered in the assessment below –

- 1) Principle of development

- 1) Impact on visual amenity and Conservation Area/ Listed Building
- 2) Impact on residential amenity
- 3) Impact on highway safety
- 4) Other matters
- 5) Representations
- 6) Conclusion

1 – Principle of development:

The site is without notation on the Kirklees Local Plan. Policy LP1 states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the National Planning Policy Framework. LP1 goes on further to stating that:

“The Council will always work pro-actively with applicants jointly to find solutions which mean that the proposal can be approved wherever possible, and to secure development that improves the economic, social and environmental conditions in the area.

Policy LP2 of the Kirklees Local Plan sets out that all development proposals should seek to build on the strengths, opportunities and help address challenges identified in the Local Plan.

In terms of extending and making alterations to a property Policy LP24 of the Kirklees Local Plan will be used to assess, in conjunction with Chapter 12 of the National Planning Policy Framework regarding design, including the adopted Kirklees Supplementary Planning Document on House Extensions (SPD).

Within the adopted SPD, Key Design Principles 1 and 2 are relevant to the consideration of the principle of the development & visual amenity and are considered within the following report. These policies state the following:

- Principle 1 – that “extensions and alterations to residential properties should be in keeping with the appearance, scale, design, and local character of the area and the street scene.”
- Principle 2 – that “extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and detail.”

With regards to the House Extensions and Alterations SPD the key designs principles for consideration are:

- Key design principle 1: Local character and street scene
- Key design principle 2: Impact on the original house
- Key design principle 3: Privacy
- Key design principle 4: Habitable rooms and side windows
- Key design principle 5: Overshadowing/loss of light

- Key design principle 6: Preventing overbearing impact
- Key design principle 7: Outdoor space
- Key design principle 9: Construction materials
- Key design principle 15: Provision for parking
- Key design principle 16: Provision for waste storage

The SPD refers to front extensions in section 5.2 and the potential impact they could have on the character of the area and visual amenity. The SPD advises that front extensions will not normally be supported unless:

- The house is set well back from the pavement or is well screened; and
- The extension is small, subservient to the original building, well-designed and would not harm the character of the original house or the area; and
- The materials and design match the existing features of the original house; and
- The extension would not unreasonably affect the neighbouring properties.

The above listed policies and guidance within the House Extensions and Alteration SPD are taken into account within the 'Impact on Visual Amenity' and 'Impact on Residential Amenity' sections of this report. On the basis the proposal is considered to be acceptable in terms of visual amenity, residential amenity and all other relevant matters it is considered the development could be concluded acceptable in principle.

2 – Impact on visual amenity:

Policy LP24 of Kirklees Local Plan and Chapter 12 of the NPPF set out that development should be of an acceptable design. Key Design Principles 1 and 2 of the Council's adopted House Extensions & Alterations Supplementary Planning Document (SPD) seek to ensure development is subservient to the host property and in keeping with the character of the locality. Principle 7 of the House Extensions SPD requires development to ensure an appropriately sized and useable area of private outdoor space is retained.

The proposed front extension would replace the existing timber glazed porch which adds moderate design value to the host property with an extension which would be 4.4m wide, almost the full width of the property, projecting 2.2m with a lean-to roof.

The extension would create a new kitchen which is currently located in the corner of the lounge, the only ground floor room, allowing for a small dining area in the lounge. The extension would also include small porch doubling up as a cloak room.

Albeit the extension is relatively large for the property it will be partially screened by the neighbour's porch at No7, where the proposed extension would be in line with this, when viewed from Delph Lane. There would also be potential of viewing the extension from Bourn View Road which runs along the

gable of No 5. However, No 5 also has an extension potentially a converted coal house, which will fully screen the proposed extension from this view point. Given these circumstances it is considered the proposal would not have a significant visual impact and would read as being in keeping with similar developments to this row of terraced properties.

The materials proposed would match the host property and with a lean-to roof would reduce its bulk when seen from the road.

Therefore, the extension is considered to relate satisfactorily to the host building and have an acceptable impact on visual amenity, in accordance with the requirements of policies LP1, LP2 & LP24 of the Kirklees Local Plan, having regard to principles 1, 2, 7 and 9 of the Supplementary Planning Document on House Extensions (SPD) and policies within Chapter 12 of the National Planning Policy Framework.

3 – Impact on residential amenity:

Policy LP24 of the Kirklees Local Plan and Chapter 12 of the National Planning Policy Framework seeks to ensure development has an acceptable impact upon the amenity of neighbouring occupiers. Key Design Principles 3, 4, 5 and 6 of the Council's adopted House Extensions & Alterations SPD seek to ensure development does not have a detrimental impact upon privacy of neighbouring occupiers, cause unacceptable levels of overshadowing or be unacceptably oppressive / overbearing.

No. 7 has two side neighbours 5 & 9 Delph Lane both attached.

Impact on No.5

No 5 is to the north where they have an existing front extension which albeit doesn't extend across the full frontage of their property it projects approx. 4.5m on the boundary with No.7. Therefore, given the proposed extension is single storey it would have little impact on these neighbours with regards overlooking, overbearing or overshadowing.

Impact on No.9

No 9 is to the south where they also have an existing front extension which again doesn't extend across the full frontage of their property it projects 2.2m on the boundary with No.7, similar projection to the proposed extension. Therefore, given the proposed extension is single storey it would have little impact on these neighbours with regards overlooking, overbearing or overshadowing.

Therefore, it is considered that the proposed extension is acceptable in terms of residential amenity. It is considered there will be no significant impact on neighbouring properties, in terms of overshadowing, overbearing or overlooking, and the proposal would accord with the aims of policies LP1, LP2 & LP24 of the Kirklees Local Plan, Principles 3, 4, 5 and 6 of the Council's

adopted House Extensions & Alterations Supplementary Planning Document as well as policies within chapter 12 of the National Planning Policy Framework.

4 – Impact on highway safety:

Policies LP21 and LP22 of the Kirklees Local Plan relate to access and highway safety and are considered to be relevant to the consideration of this application. The Council's adopted Highway Design Guide and Key Design Principle 15 of the adopted House Extensions & Alterations SPD which seek to ensure acceptable levels of off-street parking are retained are also considered to be of relevance.

The extension in this case would increase the amount of liveable space in the property, however, given the current arrangements it is not considered necessary to require additional parking to be provided given the number of bedrooms would remain unaltered, as such would meet the aims of Policy LP22 of the Kirklees Local Plan with respect to highway safety and advice in Chapter 12 of the National Planning Policy Framework.

It is also noted that there is sufficient space within the site boundary to accommodate bin storage and therefore would comply with Key Design Principle 16 of the SPD.

5 – Other matters:

Climate Change - Principle 8 of the Kirklees House Extensions and Alterations SPD states that extensions and alterations should, where practicable, maximise energy efficiency. Principle 9 goes on to highlight that the use of innovative construction materials and techniques, including reclaimed and recycled materials should be used where possible. Furthermore, Principles 10 and 11 request that extensions and alterations consider the use of renewable energy and designing water retention into the proposals.

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan pre-dates the declaration of a climate emergency and the net zero carbon target, however it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Due to the limited nature of the development proposed, it is not considered that specific mitigation measures are required to facilitate this development.

Biodiversity – Paragraphs 174, 180, 181 and 182 of Chapter 15 of the National Planning Policy Framework are relevant, together with The Conservation of Habitats and Species Regulations 2017 which protect, by law, the habitat and animals of certain species including newts, bats and badgers.

Policy LP30 of the Kirklees Local Plan requires that proposals protect Habitats and Species of Principal Importance.

Principle 12 of the Kirklees House Extensions and Alterations SPD states that extensions and alterations should consider how they might contribute towards the enhancement of the natural environment and biodiversity.

The application site is within a 'Bat Alert' layer on the Council's GIS system. Whilst formal comments have not been requested from an Ecology & Biodiversity Officer it is considered that a Bat Survey was not required in this instance. This is due to the fact the extension would have no impact on the existing roof structure of the host property as the proposal is single storey. As such would comply with policy and the aims of Chapter 15 of the National Planning Policy Framework,

6 – Representations:

None

7 – Conclusion:

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

This application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation

APPROVE

Decision Authorisation - Delegated Powers

Application Number: 2023/91199

Officer Recommendation: Approve

Conditions:

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 51 of the Planning and Compulsory Purchase Act 2004.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policies LP1, LP2, LP6, LP21, LP22, LP24 and LP33 of the Kirklees Local Plan, principles 1, 2, 3, 4, 5, 6, 7, 8, 9, 13, 15 and 16 of the Council's adopted Supplementary Planning Document on House Extensions and Alterations and to accord with Policies within Chapters 2, 4, 12, 14 and 15 of the National Planning Policy Framework.

3. The external walls and roofing materials of the extension hereby approved shall in all respects match those used in the construction of the existing building and retained thereafter.

Reason: In the interests of visual amenity and to accord with Policies LP1, LP2 and LP24 of the Kirklees Local Plan, Key Design Principles 1, 2 and 9 of the Council's adopted Supplementary Planning Document on House Extensions, Policies 1 and 2 of the Holme Valley Neighbourhood Development Plan and to accord with Policies within Chapter 12 of the National Planning Policy Framework.

Plans and specifications schedule: -

Plan Type	Reference	Date Received
Application Form		2 nd May 2023
Existing & proposed layout & elevations, cross section 1:20 and location plan 1:1250	03	2 nd May 2023
Species enhancement statement		2 nd May 2023
Climate change statement		2 nd May 2023

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2015 and otherwise actively engaged with the applicant in dealing with the application. The Case Officer did not undertake any negotiations with the applicant due to the application being acceptable in its submitted format.
