I wish to object to the planning application 2023/91212 I would like to know why the proposed plans have increased in volume from 16 to 21 properties and a new design layout? Is this because Orion homes are trying to influence Kirklees with some affordable properties to push through the application. I find the design of these properties appalling, a total lack of respect for the area and the community. Typical new housing development. I have read and agree with all of the other objection comments posted online. So I would just like to put some bullet points showing my concerns. - Dangerous site to access. - Transport - The area doesn't have the infrastructure to cope with this development. - Could be detrimental to drainage / sewage capacity, services. - Aesthetics, would be an eyesore on the landscape. - Holmbridge attracts tourism and does not need another 21 homes. - Effects on existing wildlife and conservation of the area. Greenfield site. Holmfirth is becoming over developed with large scale new housing projects and I hope that Kirklees will refuse this application.
