

**Subject:** Re: Re-writing of Traffic Assessment for 2023/91212 ?

Many thanks for this Ellie , but I think I may have to approach this matter in a different way since apparently the producers of the Transport Assessment ( Optima ) have now agreed to correct some of the errors involved.

Since many people who have commented will have only seen the incorrect version , I think the complete Application should be withdrawn and re-issued. Hope you agree.

Would you please pass this message on to DC Admin as usual .

Regards
